**NH1**

Norman, Heather, 4/4/2019

**NDPP Real-World Implementation Challenges**

The infographic features three stylized figures representing different challenges. The first figure is light orange and labeled 'Reach', with sub-points 'Priority populations' and 'Underserved areas'. The second figure is dark red and labeled 'Attendance', with sub-points 'Recruitment' and 'Retention'. The third figure is medium orange and labeled 'Sustainability', with sub-points 'Financial viability' and 'CDC Recognition'. Each figure has a circular icon above it: a group of people for Reach, a checkmark for Attendance, and a dollar sign for Sustainability.

**Reach**  
Priority populations  
Underserved areas

**Attendance**  
Recruitment  
Retention

**Sustainability**  
Financial viability  
CDC Recognition

---

18

---

---

---

---

---

---

---

---

### Technical Support

**Evaluation**  
Critical for reporting impact, sharing with diverse groups (e.g. stakeholders, legislators)

**University Support**  
Subject matter expertise, technological support, and other resources academic institutions may provide

**Current Research**  
Based on scientifically-supported and evidence-based knowledge

**Training**  
On-going trainings, professional development opportunities for Extension personnel.

**Funding**  
Sustainability for community programming

19

---

---

---

---

---

---

---

---

---

---

### Partnerships

**Flexibility**  
Ability to connect with underserved audiences and meet people where they are

**Trust**  
Earned trust with partners and clients that was built slowly over time

**Linker**  
Great connector of organizations, programs, and people with needed resources

**Community**  
Perfect partner for outreach and ability to create win-win environment

**Build Programs**  
Build and strengthen programs based on needs of the community

### University of Arizona Cooperative Extension

Partnered with dietitian from local VA hospital

Identified women with history of gestational diabetes from local WIC partner

Local health department screened our participants for prediabetes (HbA1c)

Cooperation with U.S. CDC-NIDDKH reveals and prevents prevalence of type 2 diabetes (Source: CDC)

21

---

---

---

---

---

---

---

---

---

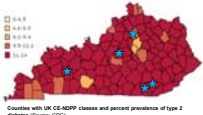

---

**University of Kentucky  
Cooperative Extension**

- Partnered with UK Healthcare Barnstable Brown Diabetes Center
- Counties that have connections to UK Healthcare Network
- Obtained external grant funds to develop community-clinical linkage

Counties with UK CE-NDPP classes and percent prevalence of type 2 diabetes (Source: CDC)

22

---

---

---

---

---

---

---

---

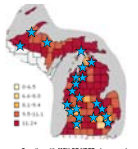

---

---

**Michigan State University  
Cooperative Extension**

- Partnered with CDE at North Ottawa Community Hospital
- CDE sought Extension to provide programming
- Created win-win and strengthened diabetes programs

Counties with MSU CE-NDPP classes and percent prevalence of type 2 diabetes (Source: CDC)

23

---

---

---

---

---

---

---

---

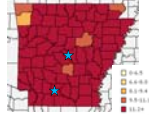

---

---

**University of Arkansas  
Cooperative Extension**

- Partnered with Health Department in Medicaid DPP Pilot
- Partnered with Local University Wellness Director
- Strengthened program through partnering lifestyle coach + exercise specialist

Counties with UK CE-NDPP classes and percent prevalence of type 2 diabetes (Source: CDC)

24

---

---

---

---

---

---

---

---

---

---

**Cooperative Extension is Well-Positioned to Address these Challenges**

Reach	Attendance	Sustainability
Priority populations Underserved areas	Recruitment Retention	Financial viability CDC Recognition
Offices in most counties Educator comes to participant Local partnerships	Strong community presence Long history of informal education Complementary programs	Extension state-funded personnel Peer educator model Medicare reimbursement
