Aligning Payment Models with EFFECTIVE DIABETES PROGRAM Management

Session Date: 8/13/2016
9:15:00 AM - 10:15:00 AM
San Diego Convention Center

LES JEBSON
Administrator, Adjunct Lecturer
SIU School of Medicine
University of Florida
E/ ljebson96@siumed.edu

Notice of Requirements for Successful Completion:
Learners must attend the entire presentation, and must refrain from any bad jokes, funny faces or selfies — in order to claim continuing education credit/hours

Healthcare funding and reimbursements vary greatly. Effective disease management, particularly diabetes care, can significantly impact healthcare spending reductions and improved quality of life. This interactive session aims to provide straightforward overviews of reimbursement models and examines the current payment systems for diabetes care and how they may evolve and work in a value-based healthcare reimbursement climate. This discussion involves active engagement of audience attendees in employing real-world.

As Medicare Goes…
Often, So Do the Other Insurers

VALUE BASE HEALTHCARE

VALUE BASED CARE

An Example: Medicare Advantage Plans

CMS Payment Changes 2015-2018
Medicare's commitment towards value-based payment grows.

MEDICARE PROGRAM
GET YOUR MANAGED CARE DEPARTMENT INVOLVED AND ENGAGED EARLY

LEVERAGE TECHNOLOGY TO PROMOTE COMPLIANCE AND PREVENTION

- Telehealth [ Rural Management ]
- Smart Phone Apps
- Automated and Manual Phone Calls
- Remote Monitoring

IT STARTS WITH DATA

- Leverage your EMR
- Pinpoint Greatest High Risk/Disease Patient Population i.e. our patients in Macon County
- Prioritize Specific Program Development i.e. reduce diabetic ER visits and Admissions
- Measure Efficacy Quarterly

LEVERAGE TECHNOLOGY TO PROMOTE COMPLIANCE AND PREVENTION

- Telehealth [ Rural Management ]
- Smart Phone Apps
- Automated and Manual Phone Calls
- Remote Monitoring

DIABETES EDUCATION SERVICES CONTINUE

- Individual and Group Diabetes Self-Management Education Training
- 98960 Medical Nutrition Therapy
- 98962 Medical Nutrition Therapy

GOALS

- Reduce Readmissions for specific diabetic population
- Improve A1C range for specific diabetic population

Enter the CPT code (s) and your state or locality, and the state specific Medicare fee should appear. Commercial plans may set their fees as a percentage of Medicare, i.e. 150%.
