ANNUAL CONFERENCE

Baltimore, Maryland • August 17 – 20, 2018

SAVE THE DATE

Save the date for AADE18. Don’t miss your chance to join a community of nurses, dietitians, pharmacists and other healthcare professionals dedicated to seeking out the latest in care for those affected by diabetes.
 Sessions on Demand
The AADE17 Sessions on Demand bundle combines 20 of the most popular sessions from AADE17, so you can get the most out of the meeting whether you’re able to attend or not.

Keep your career on track with sessions that will help you:
• Enhance your program and business management skills
• Investigate entrepreneurial opportunities
• Examine delivery models and changes in the current healthcare landscape
• Improve your ability to serve diverse populations
• Learn more about the pathophysiology, epidemiology and clinical management of prediabetes, diabetes and related chronic conditions
• Delve into the newest technologies and connected health modalities
• Explore psychosocial issues and the promotion of lifestyle behavior change

Members $199
Nonmembers $299

Please note that CE is only awarded once per session. If you attended a session onsite that is included in this package, you will not be eligible for CE for that session again. All sessions are available through July 2018.

Visit diabeteseducator.org/AADE17SOD for more information
AADE is for diabetes educators who understand the priceless advantage of a strong, unified community. Join more than 14,000 members who already know that the value of staying connected to the best practice and patient care resources is worth far more than the cost of membership.

Join AADE and be a part of the only multidisciplinary association devoted exclusively to meeting the needs of professionals who provide diabetes self-management education and support.

Just like you, AADE members want to discover more, share experiences and get involved in advancing their practice—all while making new connections. No other organization empowers diabetes educators to make a difference in the care of people who have, are affected by or are at risk for diabetes.

We belong together

All professionals dedicated to helping people manage diabetes belong here, at AADE. Our community includes:

- Nurses
- Dietitians
- Pharmacists
- Nurse practitioners
- Clinical nurse specialists
- Physicians
- PAs
- Allied health professionals
- Podiatrists
- Exercise physiologists
- Social workers
- Public health specialists
- Students

AADE is a community where you can:

- Network and connect with more than 14,000 peers
- Enhance patient care
- Deepen your expertise
- Advance your career
Your member benefits

AADE membership offers outstanding value with benefits—including free resources and substantial discounts—that more than pay for your membership dues. **Join today to enjoy the following and much more:**

- More than 20 hours of free CE (a $630 value)
- Free patient education and practice resources, including videos and downloadable patient tip sheets
- Free publications: *The Diabetes Educator* journal, *AADE in Practice* magazine and *eFYI* newsletter
- Save $200 on Annual Conference registration
- Significant discounts on webinars, online learning, courses and publications
- Free membership in your State Coordinating Body
- Exclusive access to MY AADE NETWORK and its more than 17 Communities of Interest
- Free advice and guidance from the Ask the Reimbursement Expert
- Advocacy at the federal and state levels
- Savings on insurance, Capella University, car rentals and more

BC-ADM  Board Certified Advanced Diabetes Management

Healthcare professionals who hold the BC-ADM certification skillfully manage complex patient needs and assist patients with therapeutic problem-solving. Within their respective scopes of practice, these professionals are able to:

- Treat and monitor chronic complications and comorbidities
- Counsel patients on lifestyle modifications
- Address psychological issues
- Participate in research and mentoring

**Eligibility** Maintain an active RN, RD, RPh/PharmD, PA or MD/DO license in a state or territory of the United States, with an advanced degree from an accredited program. Within 48 months prior to applying for this certification exam, complete a minimum of 500 clinical practice hours in advanced diabetes management. Certification is active for five years.

**Registration** Two exam windows are open each year: June and December. Registrations are due one month prior to the test.

**Exam pricing:** Members $600  Nonmembers $900

---

**We’ve made preparing for the exam easier than ever.**

**Candidate Handbook** Complete outline of the exam to guide your studies.

**Exam Prep Toolkit** One page study guides and a reference list to supplement your studies.

**Practice Exam** 75 questions reflecting the exam in a timed environment to benchmark your knowledge.

**BC-ADM Practice Group Discussion Board** Exclusive AADE member benefit allowing you to connect with other BC-ADMs.

Visit diabeteseducator.org/bc-adm or email us at BCADM@aadenet.org
Three important questions

• Are you working in a diabetes self-management education and support program that is not receiving Medicare reimbursement?
• Do you want your program to reach the gold standard?
• Do you want support from the only organization dedicated solely to diabetes educators?

If you answered yes to any of these questions, then AADE’s Diabetes Education Accreditation Program (DEAP) is the perfect choice for you and your program.

Why choose AADE?

• Superior customer service and technical support
• Free one-year membership to AADE
• Access to reimbursement updates

AADE Workforce Training

AADE education for your workforce. AADE works with healthcare facilities, state and local departments of public health, and other professional healthcare groups to provide workforce training and development in the areas of diabetes prevention and diabetes self-management education and support. We will schedule a consultation with you to identify your organization’s training goals, and implement education that meets your needs.

• Custom programs
  - AADE will work with you to identify your organization’s training needs and customize a program to meet your needs.

• Distance learning
  - Group access to webinars, online courses, and certificate programs
  - AADE7 Self-Care Behaviors Online Series Facility Training Package (see page 14)

• On site training
  - AADE can host a live training at your facility.

• Custom programs
  - Build your own package of existing AADE education
  - AADE can create a tailor-made program to achieve the training goals of your organization.

For more information, visit diabeteseducator.org/workforce.
CDE® Exam Resources

AADE has a variety of learning opportunities to help you prepare for the CDE exam. Learn more at diabeteseducator.org/CDE.

For more information on eligibility requirements for becoming a Certified Diabetes Educator go to NCBDE.org.

CORE Concepts® Course: Live

Prepare to earn or renew your CDE with AADE’s live CORE Concepts Course. This isn’t your typical lecture-style conference. Over three days, you will cover the essentials of diabetes self-management education while earning 22 CE.

Here’s what past attendees have to say:

“This was an excellent course that helped me identify my areas of strengths and weakness in diabetes knowledge. I feel better prepared to take the CDE exam.” - Kim Flowers

“Attending this course really helped me understand diabetes in adults. Especially the medications. I now feel empowered and ready to sit for the exam. I would highly recommend it. Thanks, AADE!” - Diane Brenes, RN, BSN

For more information, visit diabeteseducator.org/coreconceptscourse

CORE Concepts® Course: Online

Sharpen your know-how and prepare for the CDE exam with this online nine-week multimedia course. In the CORE Concepts Course Online version, you will watch presentations, read from the AADE Desk Reference, take self-check quizzes, and discuss case studies with your classmates. 22 CE

For more information, visit diabeteseducator.org/ccconline
REVIEW GUIDE FOR THE CERTIFIED DIABETES EDUCATOR® Exam, 4th Edition

Test your knowledge with over 450 multiple-choice questions. Chapters include:
- Three pre-tests based on three sections of the CDE exam: assessment, interventions, disease management
- Test-taking strategies for success
- Two, 200 multiple-choice practice exams with answer rationales

8 1/2 x 11, paper, spiral-bound, 188 pages

DIABETES EDUCATOR’S GUIDE

DSMES Program Management Certificate

Program managers often have the clinical backgrounds required to manage patient education but sometimes have limited experience with the business skills needed to market and grow the program while effectively handling reimbursement.

AADE now offers the DSMES Program Management Certificate (16 CE) to provide the business and program management skills needed to run all aspects of a successful program.

Program components

3 online courses (see page 18)
- DSMES Program Management (6 CE)
- DSMT Reimbursement Essentials, 2nd Edition (2.5 CE)
- CQI for DSMES Programs (2.5 CE)

4 recorded webinars
- Annual Reimbursement Update (1.5 CE)
- Strengthening Diabetes Prevention and Self-Management Education (1.5 CE)
- Aligning Payment Models with Effective Diabetes Program Management (1 CE)
- Money Matters in Medical Nutrition Therapy (MNT) & Diabetes Self-Management Training/Education (DSMT/E): Increase Your Insurance Reimbursement Now! (1 CE)

4 required readings (No CE)
- Diabetes Educator and Diabetes Paraprofessional Practice Levels
- Competencies for Diabetes Educators and Diabetes Paraprofessionals
- National Standards for DSMES Programs
- Diabetes Self-Management Education and Support in Type 2 Diabetes: A Joint Position Statement

Visit diabeteseducator.org/dsmecertificate for more information.
AADE Career Path Certificate Program

Advance in diabetes self-management education and support or gain entry into the field with the AADE Career Path Certificate Program. Two separate career paths – Diabetes Paraprofessional and Diabetes Educator – provide a structure for your training and education.

This online program includes recorded webinars, online courses and readings. Successful completion of all program activities provides a certificate of program completion.

Modules are:

- Self-paced • Available online 24/7
- Based on the competencies for the roles and responsibilities of each practice level

**DIABETES PARAPROFESSIONAL LEVEL 1**
Complementary workers who interact with those who have or are affected by diabetes.

**Recommended for:**
Community health workers, peer counselors, health navigators, health promoters, health coaches, assistive school personnel

**Members** $125
**Nonmembers** $150
**Product number** BCPDP1v3

**DIABETES PARAPROFESSIONAL LEVEL 2**
Complementary healthcare workers who have a defined role in a DSMES or prevention program. This level may also be aligned with practices that serve a dedicated or focused portion of diabetes patients.

**Recommended for:**
Certified Nursing Assistants, Medical Assistants, Dietetic Technicians Registered, Pharmacy Technicians, Physical Therapy Assistants, Licensed Practical Nurses, Certified Community Health Workers

Pharmacy Technicians earn 6 CE

**Members** $175
**Nonmembers** $200
**Product number** BCPDP2v3
DIABETES EDUCATOR LEVEL 1
Healthcare providers who interact professionally with diabetes patients to provide the essential knowledge and skills needed for safe self-care.

**Recommended for:**
Nurses (licensed or registered), Pharmacists (licensed or registered), Exercise Physiologists, Physical Therapists, Physicians’ Assistants, Physicians

Provides **41 CE** for nurses, dietitians and pharmacists

**Members** $495  
**Nonmembers** $595  
**Product number** BCPDE1v3

DIABETES EDUCATOR LEVEL 2
Healthcare providers who have achieved an advanced body of core knowledge and skills related to DSMES and/or management. Also includes those who have met the academic, professional and experiential criteria to qualify for and maintain the CDE® credential.

**Recommended for:**
Three to five years post-achievement of CDE, or more experienced in diabetes clinical or educational care.

Provides **62.5 CE** for nurses, dietitians and pharmacists

**Members** $895  
**Nonmembers** $995  
**Product number** BCPDE2v3

Plan, implement and maintain a successful diabetes self-management education and support program. 6 CE
**Members** $249 **Nonmembers** $349

**DSMT REIMBURSEMENT: ESSENTIALS**
The basics of reimbursement for DSMT, MNT, prediabetes and other reimbursable services. 2.5 CE
**Members** $119 **Nonmembers** $169

For more information, visit [diabeteseducator.org/onlinecourses](http://diabeteseducator.org/onlinecourses)
A proven leader in diabetes prevention, AADE has developed a subscription based network and set of tools, resources and guidance to help you prepare for Medicare and other private payer reimbursement, and then scale and sustain your diabetes prevention program once you are up and running.

Why subscribe to the AADE Prevention Network?
The healthcare landscape is complex. Prevention services and reimbursement can be complicated. We are here to simplify it with:

- **Participant Data Analytics/DAPS:** A cloud-based, HIPAA-compliant data tracking and analysis tool that will help you meet CDC Recognition Standards and provide intelligence to boost your marketing efforts.

- **Tools, Resources and Discussion Forum:** Key templates, information and a forum to interact, share and learn from other prevention program Coordinators/managers.

- **Coverage Tracking Reports:** Your go-to source for keeping up with prevention related policy changes, helping you maximize participant enrollment and reimbursement rates.

Don’t make the process more difficult than it has to be. Simplify it with a subscription to the AADE Prevention Network™.

Visit [preventionsimplified.org](http://preventionsimplified.org) for more information.
Building Your Diabetes Prevention Program (DPP) Workshop

Learn how to set up your DPP for success and sustainability.

According to recent surveys, over 80% of diabetes education programs are currently seeing patients with prediabetes but are not getting paid for these services. Why leave money on the table when there is now an avenue to get paid? It’s time to implement your own diabetes prevention program.

What to expect:

• Understand the revised National Diabetes Prevention Program Recognition Standards
• Learn how to apply for and maximize Medicare Diabetes Prevention reimbursement
• Develop talking points to justify prevention services to your organizational leadership
• Receive tools to market your program in your community
• Walk away with a completed personalized DPP Provider Readiness Assessment

Online Course:

PREVENTION 101: FUNDAMENTALS OF PREDIABETES
Diabetes prevention basics for non-clinicians working in a diabetes prevention program

Members $69  Nonmembers $89

Although nurses, dietitians and pharmacists are not eligible for CE, other non-clinicians are encouraged to apply for 2.5 CE through their respective accrediting organizations.

Do you want to learn how to bill for your prevention services? Learn more about the National Standards for DSMES Boot Camp on page 18.

For more information, visit diabeteseducator.org/DPPworkshop
AADE DPP Lifestyle Coach Training

Gain the knowledge and skills to deliver the CDC’s National Diabetes Prevention Program (National DPP) curriculum. The goal of the National DPP is to help participants make long-lasting lifestyle changes that prevent/delay developing type 2 diabetes.

What to expect

• Two-day, in-person interactive training, delivered by expert DPP master trainers
• Overview of the National DPP, DPRP registration, marketing, and reimbursement the CDC Diabetes Prevention Recognition Program (DPRP)
• Interactive small-group setting to explore hands-on facilitation techniques
• Learn the skills needed to facilitate the National DPP in your community using the CDC Prevent T2 curriculum
• 11.5 CE available for nurses, dietitians and pharmacists

AADE7 SELF-CARE BEHAVIORS™ GOAL SHEETS

A three-part carbonless form that documents self-care goals and follow-up. Based on the AADE7 Self-Care Behaviors, educators can work with patients to select a self-care behavior, select a sample goal or create an individual goal, provide dates for achievement and follow-up, and document whether the goal was achieved, continued or modified. Available in English and Spanish.

Members $12.50, $40, $350  Nonmembers $18, $50, $450
Product number: EN K701, K702, K703  SP K713, K714, K715

PATHOPHYSIOLOGY EDUCATIONAL TOOL (AS USED IN CORE CONCEPTS® LIVE COURSE)

Tool designed for educators to easily illustrate the normal vs. diabetes pathophysiology. Can be used in 1:1 or group teaching sessions.

Laminated 8 1/2 x 11 cardboard carrying-case contains the instructions and the pieces used to illustrate the normal, type 1, early and late type 2 pathophysiology. Bulk rates available.

Members $18  Nonmembers $25  Product number: K716
