AADE19

Friday, August 9 – Monday, August 12
George R. Brown Convention Center, Houston, TX

Save the date for
AADE19 in “H-Town”

Don't miss your chance to join a community of nurses, dietitians, pharmacists, and other healthcare professionals dedicated to seeking out the latest in care for those affected by diabetes.

Visit AADEmeeting.org for the latest updates.

AADE18

Sessions on Demand

The AADE18 Sessions on Demand bundle combines 20 of the most popular sessions from AADE18, so you can get the most out of the meeting whether you're able to attend or not.

Keep your career on track with sessions that will help you:

- Enhance your program and business management skills
- Examine delivery models and changes in the current healthcare landscape
- Improve your ability to serve diverse populations
- Learn more about the pathophysiology, epidemiology and clinical management of prediabetes, diabetes and related chronic conditions
- Delve into the newest technologies and connected health modalities
- Explore psychosocial issues and the promotion of lifestyle behavior change
- Engage, empower, and energize people with diabetes in the areas of the AADE7 Self-Care Behaviors™
- Master a variety of diabetes complications and comorbidities

Members \$199

Nonmembers \$299

Please note that CE is only awarded once per session. If you attended a session onsite that is included in this package, you will not be eligible for CE for that session again. All sessions are available through July 2019.

Visit diabeteseducator.org/AADE18SOD for more information

**YOU
BELONG.**
THIS IS YOUR COMMUNITY.

AADE is for diabetes educators who understand the priceless advantage of a strong, unified community. Join more than 14,000 members who already know that the value of staying connected to the best practice and patient care resources is worth far more than the cost of membership.

Join AADE and be a part of the only multidisciplinary association devoted exclusively to meeting the needs of professionals who provide diabetes self-management education and support.

Just like you, AADE members want to discover more, share experiences and get involved in advancing their practice—all while making new connections. No other organization empowers diabetes educators to make a difference in the care of people who have, are affected by or are at risk for diabetes.

We belong together

All professionals dedicated to helping people manage diabetes belong here, at AADE. **Our community includes:**

- Nurses
- Dietitians
- Pharmacists
- Nurse practitioners
- Clinical nurse specialists
- Physicians
- PAs
- Allied health professionals
- Podiatrists
- Exercise physiologists
- Social workers
- Public health specialists
- Students

AADE is a community where you can:

- Network and connect with more than 14,000 peers
- Enhance patient care
- Deepen your expertise
- Advance your career

Your member benefits

AADE membership offers outstanding value with benefits—including free resources and substantial discounts—that more than pay for your membership dues. **Join today to enjoy the following and much more:**

- DANA: Diabetes Advanced Network Access is your one-stop-resource for company-supported device and product training, technology-focused resources, continuing education and the latest technology news.
- More than 20 hours of free CE
- Free patient education and practice resources, including videos and downloadable patient tip sheets
- Free publications: *The Diabetes Educator* journal, *AADE in Practice* magazine and *FORWARD* newsletter
- Save \$200 on Annual Conference registration
- Significant discounts on webinars, online learning, courses and publications
- Free membership in your State Coordinating Body
- Exclusive access to MY AADE NETWORK and its 17 Communities of Interest
- Free advice and guidance from the Ask the Reimbursement Expert
- Advocacy at the federal and state levels
- Savings on insurance, Capella University, car rentals and more

Membership types:

Active Member	\$165/year
Industry Member	\$200/year
Student Member	\$50/year
Retired Member	\$85/year

BC-ADM

Board Certified Advanced Diabetes Management

Healthcare professionals who hold the BC-ADM certification assist people with diabetes with therapeutic problem-solving and skillfully manage their complex needs. Within their respective scopes of practice, these professionals are able to:

- Treat and monitor chronic complications
- Counsel people with diabetes on lifestyle modifications
- Address psychosocial issues
- Participate in research and mentoring
- Adjust medications

Eligibility: Maintain an active RN, RD, RPh/PharmD, PA, NP, or MD/DO license in a state or territory of the United States, with an advanced degree from an accredited program. Within 48 months prior to applying for this certification exam, complete a minimum of 500 clinical practice hours in advanced diabetes management. Certification is active for five years.

Registration: Two exam windows are open each year: June and December. Registrations are due one month prior to the test.

Exam pricing: Members \$600 Nonmembers \$900

We've made preparing for the exam easier than ever.

Candidate handbook: Complete outline of the exam to guide your studies.

Exam prep toolkit: One page study guides and a reference list to supplement your studies.

Self-Assessment exam practice questions: Over 70 questions which provide immediate feedback to help you determine where to focus your studying

BC-ADM practice group discussion board: Exclusive AADE member benefit allowing you to connect with other BC-ADMs.

Visit diabeteseducator.org/bc-adm or email us at BCADM@aadenet.org

DEAP

DIABETES EDUCATION ACCREDITATION PROGRAM

Three important questions:

- Are you working in a diabetes self-management education and support program that is not receiving Medicare reimbursement?
- Do you want your program to reach the highest quality?
- Do you want support from the only organization dedicated solely to diabetes educators?

If you answered yes to any of these questions, then AADE's Diabetes Education Accreditation Program (DEAP) is the perfect choice for you and your program.

Why choose AADE:

- Access to teaching tools, resources, workshops, and publications specifically designed for diabetes educators
- Free one-year membership to AADE
- Access to reimbursement updates
- Individualized support for new applicants through phone interviews

Pricing structure:

DEAP Program Accreditation	Community Sites	Branch Locations
\$1,100	FREE	\$100 each

Get started today and visit diabeteseducator.org/deap or email us at deap@aadenet.org for more information.

AADE Workforce Training

Take your workforce to the next level with AADE education.

AADE works with healthcare facilities, state and local departments of public health, and other professional healthcare groups to provide workforce training in the areas of diabetes prevention and diabetes self-management education and support. Custom-build your learning activities to achieve the training goals of your organization.

Benefits:

- Enhance knowledge and skills
- Bridge the gap between new and experienced staff
- Invest in your team
- Earn continuing education credits

Features:

- Personalized consultation to identify your training needs to implement educational offerings that fit best
- Build your own customized training package of existing AADE learning opportunities
- Learn in a group setting, or individually at your own pace
- Track your staff's online learning progress through administrative reporting

Host a live event or offer on-demand, online training.

For more information, visit diabeteseducator.org/workforce

CDE[®] Exam Resources

AADE has a variety of learning opportunities to help you prepare for the CDE exam. Learn more at diabeteseducator.org/CDE

Diabetes Prevention Resources

A proven leader in diabetes prevention, AADE has developed a subscription-based network with a set of tools, resources and guidance to scale and sustain your diabetes prevention program and to prepare for Medicare and other private payer reimbursement.

Why subscribe to the AADE Prevention Network?

The healthcare landscape is complex. Prevention services and reimbursement can be complicated. We are here to simplify it with:

- **Participant Data Analytics/DAPS:** A cloud-based, HIPAA-compliant data tracking and analysis tool that will help you meet CDC Recognition Standards and provide intelligence to boost your marketing efforts.
- **Tools, Resources and Discussion Forum:** Key templates, information and a forum to interact, share and learn from others involved in diabetes prevention.
- **Coverage Tracking Reports:** Your go-to source for keeping up with prevention related policy changes, helping you maximize participant enrollment and reimbursement rates.

Simplify prevention with a subscription to **the AADE Prevention Network™**.

Visit preventionsimplified.org for more information.

Building Your Diabetes Prevention Program (DPP) Workshop

Learn how to set up your DPP for success and sustainability.

With the historic expansion of Medicare to cover the Diabetes Prevention Program, this workshop is an opportunity to learn how to start or enhance your program. **6CE**

What to expect:

- Understand the revised 2018 National DPP Recognition Standards
- Learn how to apply to become a supplier of the Medicare Diabetes Prevention Program and maximize your reimbursement.
- Develop talking points to justify prevention services to your organizational leadership
- Receive tools and guidance on how to increase awareness and referrals in your community
- Walk away with a completed personalized DPP Provider Readiness Assessment

Members \$299 **Nonmembers** \$349

Online Course:

PREVENTION 101: FUNDAMENTALS OF PREDIABETES

Diabetes prevention basics for non-clinicians working in a diabetes prevention program.

Members \$69 **Nonmembers** \$89

Although nurses, dietitians and pharmacists are not eligible for CE, other non-clinicians are encouraged to apply for 2.5 CE through their respective accrediting organizations.

For more information, visit diabeteseducator.org/DPPworkshop

AADE DPP Lifestyle Coach Training

Gain the knowledge and skills required to deliver the CDC's National Diabetes Prevention Program (National DPP) curriculum. The goal of the National DPP is to help participants make long-lasting lifestyle changes that prevent/delay developing type 2 diabetes.

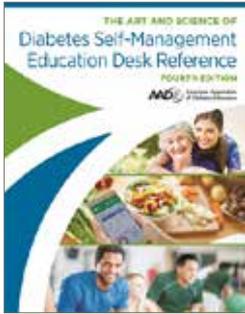

What to expect

- Two-day, in-person training, delivered by expert DPP Master Trainers
- Understand the National DPP program structure, requirements and key strategies for delivery
- An interactive, small-group setting to gain hands-on practice in group facilitation techniques
- Learn the skills needed to facilitate the National DPP in your community using the CDC Prevent T2 curriculum
- **12 CE** available for nurses, dietitians and pharmacists

Attendees receive the Prevention 101: Fundamentals of Diabetes and Prediabetes online course free with registration. See page 23.

For more information, visit diabeteseducator.org/DPPLSC email dpp@aadnet.org for more information
