AADE15: Solely Dedicated to the Needs of Diabetes Educators

Join us on Wednesday-Saturday, August 5-8, 2015, in New Orleans for the AADE Annual Meeting & Exhibition.

Together with 3,000 of your colleagues, you’ll gain a stronger understanding about the impact of external factors on your practice and be able to more effectively address them, get an up-close and personal preview of what’s new and next in diabetes technology, and be armed with educational strategies to improve your program and motivate your patients.

Educational sessions will focus on:
- Pathophysiology, Epidemiology and Clinical Guidelines
- Culturally Competent and Supportive Care Across the Lifespan
- Teaching/Learning Principles with a Focus on Behavior Change
- Individualized Care Management Utilizing an Interdisciplinary Team Approach
- Program and Business Management

Registration opens Monday, March 2, 2015.
Early Registration Rates (March 2 – April 15)
Discounted Member Price: $345
Nonmember Price: $545

Get the latest information at www.aade15.org

BC-ADM Board Certified Advanced Diabetes Management

Healthcare professionals who hold the BC-ADM certification skillfully manage complex patient needs and assist patients with therapeutic problem-solving. Within their respective scopes of practice, these professionals are able to:
- Adjust medications
- Treat and monitor chronic complications and comorbidities
- Counsel patients on lifestyle modifications
- Address psychological issues
- Participate in research and mentoring

Did you know... the number of registrants for the exam hit an all-time high in 2014, adding 150 new BC-ADMs, nationwide!

Eligibility: Maintain an active RN, RD, RPh/PharmD, PA or MD/DO license in a state or territory of the United States with an advanced degree from an accredited program. Within 48 months prior to applying for this certification exam, complete a minimum of 500 clinical practice hours in advanced diabetes management. Certification is active for five years.

Registration: Two exam windows are open each year: June and December. Registrations are due one month prior to the test.

Preparing for the exam: Download the BC-ADM Practice Exam to test your skills before exam day. This 90-minute timed test is comprised of 75 questions which reflect the tasks and knowledge of advanced diabetes management. $95 Members/Nonmembers

NEW! 2015 Exam Blueprint:
I. Assessment and Diagnosis
II. Planning and Intervention
III. Evaluation and Follow-up
IV. Leadership and Advanced Professional Practice

Pricing:
$600 Members
$900 Nonmembers

July - December Topics: Coming Soon

For a complete listing, visit: www.diabeteseducator.org/livewebinars

All webinars are subject to change. Webinars take place on Wednesdays at 1-2:30 pm EST unless otherwise noted.

Pricing:

Individual: Learn on your own and collect your CE.

Members $50/webinar
Nonmembers $65/webinar

Group: Sign up with your colleagues to learn as a team and save. All participants at the site earn CE.

Members $125/webinar
Nonmembers $155/webinar

All pricing includes CE credit for RNs, RDs and Pharmacists, regardless of membership status.

Recorded Webinars

We understand your demanding schedule. To help you keep up with your learning, all live webinars are recorded and released for purchase shortly after the live date. With more than 80 hours of CE on demand, education is at your fingertips.

For easy access to the complete listing, visit: www.diabeteseducator.org/recordedwebinars

Pricing: Individual Registration

Member $35/recorded webinar*
Nonmember $45/recorded webinar*

*Recorded webinars have an expiration date so be sure to complete each one on time to receive CE.

Did you know... AADE Members receive 20+ complimentary CE through recorded webinars?

Register for a recorded webinar today: www.diabeteseducator.org/recordedwebinars
Online Courses

Pick a course. Set the pace. Earn CE. It’s that simple!

**FUNDAMENTALS OF DIABETES CARE**
Concentrate on delivering the appropriate level of diabetes care within the scope of practice for non-clinicians. CE credit pre-approved for pharmacy techs only. **6 CE**

$95 **Members**  $145 **Nonmembers**

**ABCs OF DIABETES EDUCATION**
Learn the basics of diabetes education and take the first step towards becoming a diabetes educator. This course is perfect for clinicians interested in diabetes care. **9 CE**

$295 **Members**  $345 **Nonmembers**

**CONTINUOUS GLUCOSE MONITORING**
Explore the technology and use of continuous glucose monitoring and its impact on your practice. **4 CE**

$149 **Members**  $199 **Nonmembers**

**FACILITATING BEHAVIOR CHANGE**
Keep up with the evolving role of diabetes education in the facilitation of self-care behaviors. **6 CE**

$149 **Members**  $199 **Nonmembers**

**GESTATIONAL DIABETES**
Explore the diagnosis of gestational diabetes and how to guide your patient’s treatment throughout her pregnancy and beyond. **4 CE**

$149 **Members**  $199 **Nonmembers**

**INPATIENT DIABETES MANAGEMENT**
Focus on the art and science of caring for patients with hyperglycemia and/or diabetes in the hospital setting. **4 CE**

$149 **Members**  $199 **Nonmembers**

**DSMT REIMBURSEMENT: ESSENTIALS**
Cover the basics of reimbursement for DSMT, MNT and other reimbursable services that can be provided in your program. **3 CE**

$135 **Members**  $185 **Nonmembers**

**DSMES PROGRAM MANAGEMENT**
Learn how to plan, implement and maintain a successful diabetes self-management education and support (DSMES) program. These strategies apply in all DSM delivery models. **6 CE**

$249 **Members**  $349 **Nonmembers**

**INSULIN PUMP THERAPY**
Discover all aspects of insulin pump therapy, from patient preparation and pump settings to the implementation of a pump program. **7 CE**

$249 **Members**  $349 **Nonmembers**

**DIABETES AND CHRONIC KIDNEY DISEASE**
Understand the essentials of diabetic kidney disease: slowing its progression, addressing complications, and educating patients. This course is produced by National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK). **5 CE**

$95 **Members**  $145 **Nonmembers**

**MONITORING: FROM MEASURING TO MASTERING MANAGEMENT**
Vigilant monitoring is an integral part of managing diabetes. Take this three-part series to learn the monitoring skills needed to help your patients succeed.

**Level 1:** Identify the value of self-monitoring of blood glucose (SMBG). **1.5 CE**
**Level 2:** Learn strategies for effective SMBG. **2 CE**
**Level 3:** Incorporate strategies into DSME training to improve patient outcomes. **2 CE**

*All levels are sold separately and individually priced.

$0 **Members**  $49 **Nonmembers**

Reduced rates are available to groups of 5 or more participants from the same organization. For more information, contact Member Services at 800.338.3633 ext 100. For CE information and to register, visit: www.diabeteseducator.org/onlinecourses
CORE Concepts® Course

www.diabeteseducator.org/coreconceptscourse

Prepare to earn or renew your CDE® with AADE’s CORE Concepts® Course. Choose your learning style and earn 22 CE.

Course highlights:
• In-depth exploration of the scientific fundamentals of diabetes education
• Three interdisciplinary instructors who will cover the unique perspectives of nurses, dietitians and pharmacists
• Interactive case studies that put scientific concepts into practice

Course options:
CORE Concepts® Course Live
Attend a three-day live event and mingle with your peers onsite while participating in this intensive workshop.

2015 Locations
Las Vegas, NV
March 12-14
Orlando, FL
April 16-18
Rosemont, IL
September 17-19
Reston, VA
October 15-17

Pricing:
Early Registration*
$545 members  $625 nonmembers
Regular Registration
$745 members  $825 nonmembers

*Early registration closes one month before the start of each course.

CORE Concepts® Course Online
Over nine weeks, instructors will guide participants through five modules that will explore the basis of diabetes education. Through facilitated discussions and a communication forum, participants can easily interact among themselves and with the instructors.

Online Requirements:
• The Art and Science of Diabetes Self-Management Education Desk Reference, 3rd Edition
• Two years of experience in diabetes education is highly recommended
• Experience with online learning

2015 Dates
January 19th - March 22nd
April 20th - June 21st
July 6th - September 6th
September 21st - November 22nd

Pricing:
Course Only*
$386 members  $586 nonmembers

*This registration price does not include the cost of the Desk Reference. Please purchase separately.

AADE Career Path Certificate Programs

Advance in diabetes education or gain entry into the field with The AADE Career Path Certificate Programs. Two categories – Associate Diabetes Educator (ADE) and Diabetes Educator – provide a structure for your training and education. These online programs include recorded webinars, online courses and readings. Successful completion of all program activities provides a certificate of program completion.

Programs are:
- Self-paced
- Available online 24/7
- Based on the competencies for the roles and responsibilities of each educator practice level

**ASSOCIATE DIABETES EDUCATOR LEVEL 1**
Complementary workers who interact with those who have or are affected by diabetes.

**Recommended for:**
Community health workers, peer counselors, health navigators, health promoters, health coaches, assistive school personnel

**Members** $125.00  
**Nonmembers** $125.00  
**Product Number** BCPADE1v1

**ASSOCIATE DIABETES EDUCATOR LEVEL 2**
Complementary healthcare workers who have a defined role in a certified or recognized diabetes education or prevention program. Level 2 ADEs may also be aligned with practices that serve a dedicated or focused portion of diabetes patients.

**Recommended for:**
Certified Nursing Assistants, Medical Assistants, Dietetic Technicians, Registered, Pharmacy Technicians, Physical Therapy Assistants, Licensed Practical Nurses

Pharmacy Technicians earn 6 hours of CE

**Members** $175.00  
**Nonmembers** $175.00  
**Product Number** BCPADE2v1

**DIABETES EDUCATOR LEVEL 1**
Healthcare providers who interact professionally with diabetes patients to provide the essential knowledge and skills needed for safe self-care.

**Recommended for:**
Registered Nurses (licensed or registered), Pharmacists (licensed or registered), Exercise Physiologists, Physical Therapists, Physicians Assistants, Physicians

Provides 46 hours of CE for nurses, dietitians, and pharmacists

**Members** $495.00  
**Nonmembers** $495.00  
**Product Number** BCPDE1v1

**DIABETES EDUCATOR LEVEL 2**
Healthcare providers who have achieved an advanced body of core knowledge and skills related to diabetes education and/or management. Also includes those who have met the academic, professional and experiential criteria to qualify for and maintain the CDE® credential.

**Recommended for:**
3-5 years post-achievement of CDE® or more experienced in diabetes clinical or educational care.

Provides 62 hours of CE for nurses, dietitians, and pharmacists

**Members** $895.00  
**Nonmembers** $895.00  
**Product Number** BCPDE2v1

Pathophysiology Educational Tool

Tool designed for educators to easily illustrate the normal vs. diabetes pathophysiology. Can be used in 1:1 or group teaching sessions.

Laminated 8 1/2 x 11 cardboard carrying case contains the instructions and pieces used to illustrate the normal, type 1, early and late type 2 pathophysiology. Bulk rates available.

Members $18.00  Nonmembers $25.00  Product Number: K716
www.diabeteseducator.org/product/K716
Three Important Questions:
• Are you working in a DSME program that is not receiving Medicare reimbursement?
• Do you want to prove that your high-quality program is evidence-based?
• Do you want to join over 5,000 sites that meet the National Standards of Diabetes Self-Management Education and Support?

If you answered yes to any of these questions, then AADE’s Diabetes Education Accreditation Program (DEAP) is the perfect choice for you and your program.

Why choose AADE?
• Only association dedicated solely to diabetes educators
• Superior customer service and technical support
• Accreditation in as little as four weeks

Pricing Structure:

---

**DSME Workshop**

Developing or operating a DSME program requires more than just an understanding of the National Standards for Diabetes Self-Management Education and Support. What about reimbursement and documentation? How does one write and follow-up on behavioral goals or CQI plans?

Based on these common obstacles to a successful program, AADE developed a live, one-day workshop: **Building Your Diabetes Education Program- Everything You Need to Know and More.**

This workshop covers the most frustrating pain points that program managers encounter while building their programs:
• Comprehensive review of the National Standards for Diabetes Self-Management Education and Support
• Reimbursement and documentation
• Setting SMART goals
• Live chart auditing to help you develop your own charting requirements
• Breaking down the CQI process
• Marketing and Sustainability

Attendees can network and brainstorm innovative ways to improve their practices all while earning 6 CE. Anyone looking to start or improve a diabetes education problem is invited to attend!

**Did you know...** 100% of the programs that attended in 2014 and applied for accreditation were successful!

**2015 Workshops:**

- **April 2015** Dulles, VA
- **August 4th, 2015** New Orleans, LA (AADE15)
- **November 2015** Phoenix, AZ

**Cost:** $295 Members/Nonmembers

For more information, email Peter Kim at pkim@aadenet.org.
By special arrangement with American Diabetes Association Publishing, AADE has carefully selected the following books of interest to diabetes educators and made them available to AADE members at discounted prices.
