

## **Volunteer Opportunity: Awards and Scholarships Reviewer 2013**

AADE Foundation is currently seeking reviewers for the 2013 Recognition Awards and Foundation Scholarship programs. The AADE Foundation manages the Awards and Scholarships programs for AADE. We provide Scholarships to AADE members to attend the AADE Annual Meeting with either a complementary registration or funds for travel and accommodations. Recognition Awards honor AADE leaders, members and others that have made valuable contributions to the field of diabetes education. You will review applications submitted by AADE members and will play an integral role in determining recipients in each category

The review process takes place in March and April each year, with the awards review in March followed by the scholarship review in April. Each reviewer is assigned a group of applications to read and score. We try to have at least three reviewers read every application and a final score is determined by combining scores for an average. We try to keep the process fair and unbiased, if a reviewer knows an applicant they will be assigned another application. Reviewers are always amazed and impressed by the talent and commitment displayed by their fellow AADE members, many of them learn something new from their peers.

### **Responsibilities:**

Reviewers expected to be available for all scheduled conference calls, not to exceed three per year.

### **Benefits:**

- Opportunity to get involved with AADE
- Make a difference in the careers of fellow educators
- Invitations to events at Annual Meeting
