More than 1,000 new members joined AADE in 2011! This impressive growth is a testament to the strength of the association and confirms that our strategic direction is resonating with the professionals we serve.

The year 2011 has been characterized by forward thinking and vision, but it also provided us with the opportunity to look internally and assess our relevance to our members—professional diabetes educators. We have been examining the benefits that our association offers to members and what they will need from AADE in the next decade. We have been asking how we can serve the current needs of diabetes educators and position ourselves to support them throughout the coming transitions. The steps we took in 2011, and our continued growth as an association, position us more firmly as a leader in the new landscape of health care.

This report offers an overview of the main strategic milestones we reached in 2011. Take a moment to read about these developments and the steps that we’ve taken to assess, plan, position and prepare for the future of diabetes management and care.
We found that the demand for diabetes educators is projected to increase by at least 60 percent between now and 2025, and that this number will increase exponentially if pre-diabetes becomes a covered benefit. Other key findings from the survey indicate that the job market for diabetes educators will be robust, with a broadening array of work settings and an increased acceptance of the benefits of diabetes education by private and public payers. Also, the demand for higher and lower level diabetes educators will grow, with Levels 3-5 educators increasingly serving as program managers and coordinators of Level 1-2 educators. Levels 3-5 educators will also be asked to design new ways of delivering services via technology.

This Workforce Analysis provided insight into possible directions the field of diabetes education could take in the future, and it has helped us formulate a plan for meeting the evolving needs of our member professionals.

The Diabetes Education Trends Survey Reveals Members’ Perspectives on the Future

The Trends Analysis survey was another key tool that we used to take the pulse of our members and understand the trends and drivers impacting associations, diabetes educators and their practices.
sTRATEGIC PLANNING PROCESS LAYS GROUNDWORK FOR FURTHER DEVELOPMENTS

AADE’s strategic planning process is rigorous and thorough—and is the key to a strong, successful organization. Our strategic goals are essential to the association’s work; they provide a rationale and a frame of reference for the initiatives that we launch, and they give us a destination and a roadmap for the future.

AADE uses a three-year planning cycle to frame the strategic goals and ensure continuity and a future focus. Strategies and tactics are adjusted each year to respond to the rapidly changing environment of health, health-care, and association management and governance.

The Workforce Analysis and Trends Survey undertaken in 2011 helped us complete the first phase of planning for the upcoming 2013-2015 Strategic Plan. During 2012 we will develop scenarios expressing the range of possibilities for the diabetes educator in the future and identify the key factors that will position AADE to be successful regardless of which scenario prevails.

PLANNING FOR THE CHANGES TO COME

Diabetes education is not a static profession. New developments in care delivery models and payment reform measures bring about corresponding changes in the practice of diabetes education and the professionals who deliver it. It is against this ever-changing background that AADE must determine the strategic direction of the association.

Respondents agreed or strongly agreed that:

- Technology will impact how diabetes educators deliver services and do their jobs in the years ahead.
- New models of patient care delivery and risk-based payment will impact how diabetes education services are reimbursed.
- People, in general, will demand more transparency and accountability from organizations that they join and support.
- Diabetes educators will take on expanded roles in population health management as well as patient management.

The Workforce Analysis and the Trends Survey provide us with ample information on which to build our strategic plan for the association. This plan will keep our members’ current needs in mind while continuing to develop the tools and resources that will help them navigate the future of diabetes care and remain relevant in the workplace.

Respondents agreed or strongly agreed that:

- Technology will impact how diabetes educators deliver services and do their jobs in the years ahead.
- New models of patient care delivery and risk-based payment will impact how diabetes education services are reimbursed.
- People, in general, will demand more transparency and accountability from organizations that they join and support.
- Diabetes educators will take on expanded roles in population health management as well as patient management.

The Workforce Analysis and Trends Survey provide us with ample information on which to build our strategic plan for the association. This plan will keep our members’ current needs in mind while continuing to develop the tools and resources that will help them navigate the future of diabetes care and remain relevant in the workplace.
The future might be challenging and unknown, but we can succeed and continue to thrive if we have a strongly defined vision of where we want to go and a carefully executed plan for getting there.

DEMONSTRATION PROJECTS CREATE FOUNDATION FOR NEXT STEPS

In 2011, AADE began several demonstration projects that are seeking the most effective and efficient ways of integrating diabetes education and educators into new delivery models, as well as exploring the most effective uses of technology in diabetes care.

One of our demo projects is examining the role of the diabetes educator in the Patient-Centered Medical Home. We have formed agreements with five sites across the country, each of which has fully integrated different levels of diabetes educators into the PCMH team. Results from these demonstration projects should be released in 2012.

AADE is also on the cutting edge of assessing new ways to integrate technology in the delivery of diabetes education. In 2011, we were particularly pleased to launch a new initiative focusing on mobile health. With the Office of Minority Health, AT&T and the Diabetes Health and Wellness Institute of Baylor Health System, we are facilitating a project that will connect diabetes educators with patients via mobile technology and video platforms. Using video and audio technology via smart phones, diabetes educators will deliver diabetes self-management training.

To examine this issue from multiple viewpoints, the AADE Education and Research Foundation also awarded two grants in 2011 to diabetes education programs for the development of their onsite tele-health systems and activities.

All of these projects help prepare the profession for evolving delivery mechanisms, and are factored into AADE’s planning process.

POSITIONING THE ASSOCIATION AND ITS MEMBERS FOR SUCCESS

AADE’s activities and initiatives collectively serve to strengthen the position of diabetes educators in the greater healthcare community, and advocate for the critical services they provide to people with diabetes. This is accomplished through local and national advocacy activities, partnerships, and international outreach.

STATE AND FEDERAL LEGISLATION AIDS TO STRENGTHEN THE LEGAL POSITION OF DIABETES EDUCATORS

Our advocacy initiatives at the national and state levels work together to further establish diabetes educators as the go-to professional for diabetes-related care and education.

In 2011, we continued to pursue federal legislation that would designate credentialed diabetes educators as recognized Medicare providers of outpatient diabetes self-management training. We re-introduced
Every partnership and alliance we form helps us harness the power and resources of multiple organizations to more effectively advocate for our mutual causes. This year, we served as one of the co-chairs of the Diabetes Advocacy Alliance, which is a coalition of professional, patient and trade associations, other nonprofit organizations, and corporations who are united in their desire to change the way diabetes is viewed and treated in America. The members of the Alliance work to inform and educate legislators and other policymakers about issues surrounding diabetes and pre-diabetes.

We have also actively reached out to organizations outside of the United States to collectively leverage our knowledge and skills to better serve people with diabetes on a global scale.

This year, we became a full-fledged member of the International Diabetes Federation. The IDF aims to “influence policy, increase public awareness and encourage health improvement, promote the exchange of high-quality information about diabetes, and provide education for people with diabetes and their healthcare providers.” As members of the IDF, we’ll be able to broaden our scope and influence by working with a number of other associations and organizations to tackle the global issues and trends in diabetes care.

Other international activities included hosting an International Diabetes Conference in Mexico City. We also served on the advisory board for Asia-Pacific Educator Conference that took place in Taipei, and we have opened dialogue with a number of Middle Eastern countries, consulting on materials development and the credentialing process in those countries.

We found that the demand for diabetes educators is projected to increase by at least 60 percent between now and 2025, and that this number will increase exponentially if pre-diabetes becomes a covered benefit.
It was a busy, productive year, and we are confident that our activities firmly position us and our members for even greater success in the years to come.
Below is an overview of the initiatives and activities AADE launched or completed this year, defined by strategic goal area.

PUBLIC AFFAIRS

Self-management is central to quality diabetes care and prevention. AADE advocates for policies that improve access to self-management education by collaborating with key stakeholders in the healthcare community.

LEGISLATIVE ACTIVITY
- Passage of licensure legislation in Kentucky
- Introduction of DSMT Act in U.S. Senate and House

COALITION PARTICIPATION
- Diabetes Access to Care Coalition
- Diabetes Advocacy Alliance
- Diabetes Care Project
- National Diabetes Education Program
- National Quality Forum
- Partnership for Prevention
- Partnership to Fight Chronic Disease
- Peers for Progress
- STOP Obesity Alliance

PUBLIC POLICY COMMENTS AND POSITION STATEMENTS
- Comments to CMS: Summary of Benefits and Uniform Glossary
- Letter to HHS: Inclusion of DMST and Diabetes Prevention in the Essential Health Benefits Package
- Competitive Bidding Supplier Survey: Contract Suppliers Do Not Offer 60 Percent Coverage and Uniform Glossary
- Comments to CMS: 2012 Physician Fee Schedule
- Pre-Diabetes/Prevention Position Statement

INDUSTRY ALLIES COUNCIL MEMBERS
- Abbott Nutrition
- Bayer HealthCare
- BD Consumer Healthcare
- Boehringer Ingelheim Pharmaceuticals, Inc.
- Eli Lilly & Company
- GlaxoSmithKline
- Lifescan, Inc.
- Medtronic MiniMed
- Merck & Co., Inc.
- Nova Nordisk
- NutriSystem
- Roche Diagnostics
- Sanofi
- Takeda

PATIENT EDUCATION MATERIALS
- Diabetes Education Prompt Deck
- Patient website: www.diabetesselfcare.org
- ABCs of Diabetes Care brochure
- Healthy Thanksgiving Plate
- Patient Education Materials™ Listing: Living with Diabetes DVD

PRACTICE AND RESEARCH

The practice of diabetes self-management is evidence-based and outcomes-driven. AADE sets the scope and direction for self-management education.

POSITION STATEMENTS – UPDATED AND NEW
- AADE™ Self-Care Behaviors
- Community Health Workers
- Cultural Sensitivity and Diabetes Education
- Diabetes and Disabilities
- Diabetes Inpatient Management
- Healthy Eating: Incorporating Nutritional Management into Lifestyle
- Primary Prevention of Type 2 Diabetes
- Standards for Outcomes Measurement of Diabetes Self-Management Education & Technical Review

PRACTICE ADVISORIES
- Food Safety and its Importance for the Diabetes Educator
- Telehealth and the Impact on Diabetes Self-Management Training

WHITE PAPERS
- Addressing the Need for an Instrument to Measure Behavior Change in DSME
- Insulin Pump Therapy: Best Practices in Choosing and Using Infusion Devices
- Strategies for Insulin Injection Therapy in Diabetes Management

OTHER PRACTICE DOCUMENTS
- Update of the Scope and Standards for DSME

RESEARCH PROJECTS AND SURVEYS
- Communications Audit
- Diabetes Education Trends Survey
- Patient-Centered Medical Home Demonstration Project
- Workforce Analysis Study

SYMPOSIA
- The Role of the Diabetes Educator in Identifying and Addressing Depression in People with Diabetes
- Reducing Risks

FAVORABLY REVIEWED MATERIALS
- Five issues of Diabetes Health Monitor
- One review of the Guide to Diabetes from the Diabetes Health Monitor
- Six Milner-Fenwick Videos
- 12 booklets from Sanofi
- 22 modules from Nova Nordisk

AADE DIABETES EDUCATION ACCREDITATION PROGRAM
Accredited 131 programs, 455 sites

BC-ADM CREDENTIAL
86 sat for exam

MEMBERSHIP
AADE is the key to professional success. AADE provides opportunities and resources to advance skills and career goals, and offers its members a vibrant, supportive network.

MY AADE NETWORK
- 88 chapters transitioned to the MY AADE NETWORK
- Formed the Member Affiliates Council for CB and COI leaders

VOLUNTEER LEADER TRAINING
- Monthly online Volunteer Leader Newsletter
- Quarterly leader briefings
- Two-day Leadership Meeting
- Three audio programs
- Online leader resource library

APPROVED BYLAWS CHANGES
- Changes to Associate, student, retired member categories
- New industry and international member categories
- Creation of new AADE Member Affiliates Liaison to the Board, an ex-officio position elected every two years
- New Member Affiliates as formal communities within AADE that bring members together based on location, interest, discipline or task
2011 REVIEW

JOURNAL AND NEWSLETTERS
- Six issues of The Diabetes Educator journal
- Four issues of AADE in Practice
- 11 issues of the e-FYI member newsletter

EDUCATIONAL MEETINGS
- AADE Annual Meeting & Exhibition, August 2011
- Four Core Concepts Courses
- Four Diabetes Accreditations Standards
  - Practical Applications courses

PUBLICATIONS
- AADE Quick Guide to Medications, 2nd Edition
- Navigating the Maze (of Reimbursement) Series
- The Art & Science of DSME Desk Reference, 2nd Edition

ONLINE PROGRAMS
- Advanced Inpatient Management
- Continuous Glucose Monitoring Advanced Course
- Gestational Diabetes Advanced Course

WEBINARS
- Actively Practicing with CGM

FINANCIAL REVIEW

The American Association of Diabetes Educators has shown consistent and profitable growth. Our history of fiscal stability has allowed us to continue to develop programs, services and resources that keep our members at the forefront of diabetes patient care.

The AADE Foundation is committed to providing educational opportunities to association members. Our scholarships further their professional development and assist them with completing their annual continuing education requirements. We awarded 28 scholarships in 2011:

- Jane Abbey, RN, CDE
- Dana Armstrong, RD, CDE
- Pamela Beamer, RD, CDE, CDN
- Sandra Chmelnik, RD
- Terry Compton, RN, MS, CDE
- Ann Davin, BSN, RN, CDE
- Dee Deakins, RN, MS, CDE
- Eileen DeLeeuw, MS, RD, CDE
- Wendy Drew, BSN, RN, CDE
- Patricia Freitag, CNS, BC-ADM, CDE
- Dawn Hagerty, RN, CDE
- Patricia Hald, MSN, RN, CRBN, CDE
- Jeanne Harmon, RD, MBA, CDE
- Rhonda Haske, RN, BSN, CDE
- Sherril Horvat, BSN, RNC, CDE
- Teresa Huddleston, MS, RN, LD, CDE
- Linda Jackson, RN
- Kathy Levin, RD, CDE
- Carol Lovel, RN
- Rosa Matoni, RN, CDE
- Jacqueline McKenna, APRN, PhD, CDE, BC-ADM
- Geralyn Merkey, RN, CDE

Pursuing research that seeks to improve patient care and builds the evidence base for diabetes education

The AADE Foundation continued to pursue funding for research projects that offer new insights and reinforce current approaches to diabetes education, and that demonstrate the clinical and cost-effectiveness of diabetes education and diabetes educator interventions.

With support from the McKesson Foundation, the Foundation funded two projects in 2011 that examined the use of telephonic and electronic communications in providing patient support. Two AADE-accredited diabetes education programs received the grants: Sutter Integrated Diabetes Education Network (Sacramento and Palo Alto, CA), Principal Investigator Kimberly Biss, MD, and the McDaid Diabetes Center (Florence, SC), Principal Investigator Marilyn Henderson, RN, BA, CDE.

In collaboration with Sigma Theta Tau International, AADE provided funding to Emory University (Atlanta, GA) for a study seeking to understand diabetes self-management behaviors in Korean Americans with type 2 diabetes. The principal investigator for the study is Eun Seok Cha, PhD, RN, MPH, MSN.

As the philanthropic arm of the American Association of Diabetes Educators, the AADE Foundation funds research grants that further the strategic goals of the association and scholarships that nurture the professional development of AADE members.

The Foundation also oversees the AADE Awards Program, which recognizes members of the diabetes care community for their contributions.

Scholarships that advance professional development

The Foundation is committed to providing educational opportunities to association members. Our scholarships further their professional development and assist them with completing their annual continuing education requirements. We awarded 28 scholarships in 2011:

- Jane Abbey, RN, CDE
- Dana Armstrong, RD, CDE
- Pamela Beamer, RD, CDE, CDN
- Sandra Chmelnik, RD
- Terry Compton, RN, MS, CDE
- Ann Davin, BSN, RN, CDE
- Dee Deakins, RN, MS, CDE
- Eileen DeLeeuw, MS, RD, CDE
- Wendy Drew, BSN, RN, CDE
- Patricia Freitag, CNS, BC-ADM, CDE

- Kathy Levin, RD, CDE
- Carol Lovel, RN
- Rosa Matoni, RN, CDE
- Jacqueline McKenna, APRN, PhD, CDE, BC-ADM
- Geralyn Merkey, RN, CDE
The recipient of the 2011 Chapter of the Year Award, the Association of Diabetes Educators of Utah, was recognized for its demonstrated leadership and support of national association goals. Soraida Berrios-Guccione, RN, was honored with the 2011 Rising Star Award, which recognizes a new diabetes educator who has demonstrated leadership and commitment in his/her practice. Logan Gregory, a 16-year old who was critical in achieving passage of diabetes educator state licensure in Kentucky, earned the 2011 Advocacy Award. The Innovation in Practice Award honors a diabetes educator who advances the specialty by supporting ways to improve diabetes education, better meet patient needs, and/or resolve problems and barriers to patient care. The 2011 recipient was Susan Riley, RN, FNP-BC, CDE. A new award, the Innovative Use of Media and Technology Award supports the development and/or implementation of a concept for the innovative use of media and technology to advance diabetes education. The 2011 recipient was Kathy Gold, RN, MSN, CDE.

We thank the following companies for supporting our awards program in 2011: Bayer Diabetes Care, BD, dLife, Lifescan, Inc., Roche Diagnostics and Novo Nordisk.

We thank the following entities for supporting our scholarship initiatives in 2011: Boehringer Ingelheim Pharmaceuticals, Medtronic MiniMed, Physicians Committee for Responsible Medicine, Sage Publications and the AADE Utah Coordinating Body.

The recipient of the 2011 Julie Betschart Memorial Scholarship was Terry Compton, MS, APRN, RN, CDE.

Awardees that recognize excellence in diabetes education Each year, the AADE Awards Program honors excellence in diabetes education and service to the association and to the greater diabetes community. The awards are presented each August at the AADE Annual Meeting.

The 2011 Living Legend Award was given to one of AADE’s early members. A true role model, Diana Guthrie, ARNP, RN, PhD, FAAN, ARNP, CDE, BC-ADM, was recognized for her many years of service and dedication to AADE and the diabetes education community. The 2011 Allene Van Son Distinguished Service Award went to Martha Price, DNSc, ARNP, CDE, in recognition of her many contributions, particularly in the research arena. Awarded the Diabetes Educator of the Year Award in August 2010, Elaine Massaro, MS, RN, CDE, traveled throughout the country during 2011, delivering her continuing education program, “Group Medical Visit Models: A Salient Avenue for Improving Diabetes Self-Management,” to AADE chapters and affiliates.

The AADE Education and Research Foundation is pleased to recognize the following donors for their generous contributions to the AADE Education and Research Foundation. These gifts have helped us fulfill our mission and improve the professional lives of many AADE members. Gifts listed here represent donations received from January 1, 2011, through December 31, 2011. We apologize in advance for any unintended omissions.

**CORPORATE AND ORGANIZATION DONORS**

**BRONZE $500 – $499**
- Alabama Association of Diabetes Educators
- GE United Way Campaign
- Morgan Stanley
- AADE Pennsylvania Coordinating Body
- United Way of Central New Mexico
- United Way of Delaware
- United Way of Lake County
- FRIEND <$100
  - American Dietetic Association
  - Fidelity Charitable
  - Greater Twin Cities United Way
  - Just Give
  - Truist
  - United Way of the Capital Region

**GOLD $1,000 AND UP**
- AADE
- ADE Advanced Practice Community of Interest
- AADE Utah Coordinating Body
- Abbott
- Bayer Healthcare, Diabetes Care
- BD
- Bristol-Myers Squibb and AstraZeneca LP
- CanAm Cares
dlife
- Eli Lilly and Company
- Greater East Texas Assn of Diabetes Educators
- LifeScan – A Johnson & Johnson Company
- McKesson Foundation
- Medical Research Charities
- Novo Nordisk
- Physicians Committee for Responsible Medicine
- Robert and Alice Bridges Foundation
- Sanofi US
- Sigma Theta Tau International
- Southern Arizona Chapter of Diabetes Educators
- Washington Association of Diabetes Educators

**SILVER $500 – $999**
- Abbott Laboratories Employee Giving Campaign
- Bank of America Foundation
- Maine Association of Diabetes Educators
- Southeast Association of Diabetes Educators
- The Brooks Group and Associates
The Purple Circle was established in 2010 to give past AADE leaders an opportunity to demonstrate their ongoing support of AADE and the AADE Foundation, while leaving a legacy for AADE members. Purple Circle members will make a yearly gift that will go towards establishing an educational scholarship fund. Once the fund has grown significantly, Purple Circle members will determine the criteria and process of awarding the scholarship. Purple Circle members for 2011:

**GOLD $1,000 AND UP**

- Mary Austin, MA, RD, CDE, FADEE
- Susan Rice, MBA, BSN, CDE, FAADE

**SILVER $500 – $999**

- Mary Austin, MA, RD, CDE, FADEE
- Robert Babbage
- Susan Barlow, RD, CDE
- Amparo Gonzalez, RN, RD, CDE, BC-ADM
- Jane Kadohiro, DrPH, APRN, CDE, FAADE

**BRONZE $100 – $499**

INdIvIduAL dONORS
The AADE Education and Research Foundation maintained a strong financial position throughout 2011. The following charts represent the Foundation’s net assets, contributions to net assets, and a breakdown of how the Foundation funds are distributed to benefit diabetes educators.

### 2011 NET ASSETS

<table>
<thead>
<tr>
<th>Category</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENDOWMENT</td>
<td>87,000</td>
</tr>
<tr>
<td>RESEARCH</td>
<td>308,000</td>
</tr>
<tr>
<td>SCHOLARSHIP</td>
<td>99,000</td>
</tr>
<tr>
<td>EDUCATION</td>
<td>198,000</td>
</tr>
<tr>
<td>UNRESTRICTED</td>
<td>617,000</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>1,309,000</strong></td>
</tr>
</tbody>
</table>

### 2011 CONTRIBUTIONS

<table>
<thead>
<tr>
<th>Category</th>
<th>Amount</th>
