MAPPING A NEW COURSE FOR THE FUTURE

2012 ANNUAL REPORT
AMERICAN ASSOCIATION OF DIABETES EDUCATORS
AADE EDUCATION AND RESEARCH FOUNDATION
The year 2012 has been one of incredible growth and progress. We had 2,604 new members join AADE. This represents a 7.1 percent increase from the previous year, and indicates that the strategic endeavors of the association are in line with the needs of the diabetes educator. However, we are relentlessly advocating on behalf of our members to prepare them for what challenges might lay ahead.

This report provides an overview of the strategic milestones we achieved in 2012. Please take some time to read about the present state of your association and our plans for the future.

Advancing Our Research Agenda

With the escalating number of people diagnosed with prediabetes, the role of diabetes educators on the prevention front is becoming increasingly imperative. AADE is participating in efforts to help reduce this growing health problem. In 2012, we received a grant from the Centers for Disease Control and Prevention (CDC) to expand availability of the National Diabetes Prevention Program. The award is through the 2012 Prevention and Public Health Fund cooperative agreement. It allows us to bring more resources to members interested in delivering this program in their local communities. AADE plans to work with diabetes educators in using the National Diabetes Prevention Program curriculum, which is an evidence-based lifestyle change program designed for people with prediabetes.

AADE also participated in the Together on Diabetes Project, an initiative funded by the Bristol-Myers Squibb Foundation. We examined the feasibility of incorporating a multilevel, diabetes self-management education program within the patient-centered medical home to provide effective care to underserved populations with diabetes.

Another facet of work focused on gestational diabetes. We published "Window of Opportunity: Postpartum Screening of Women with Gestational Diabetes for Early Detection of Prediabetes and Type 2" in The Open Diabetes Journal. This paper explored barriers contributing to the lack of follow-up screenings for women with gestational diabetes after delivery. It also explained the importance of this screening in preventing or delaying the onset of diabetes for this at-risk population.

Converging Diverse Industries to Discover New Avenues of Research

Discussing and weighing multiple perspectives are keys for developing research. AADE was involved in a number of research symposiums this year, fostering conversation among our peers in a diverse array of organizations and institutions. We hosted a one-day research summit to discuss the types of information needed to build a strong case for the value of diabetes self-management education and the inherent need for diabetes educators.

We also presented a session entitled, "Understanding the Effect of Cost-Sharing, Access to and Utilization of, Diabetes Self-Management and Training" at the Second Annual Global Diabetes Summit. This symposium brought together international diabetes experts to present the latest diabetes research outcomes and formulate an interdisciplinary road map for prevention, detection and treatment of diabetes.

The world is in a constant state of motion with rapid changes in technology, critical reforms in health care and a diabetes epidemic that grows unabated. AADE is keenly attuned to these trends and continues to evolve so that we can best serve our members and the greater healthcare community.
As a capstone to the 2011 Workforce Analysis Study, AADE hosted a one-day workforce summit. We convened a group of healthcare professionals to discuss challenges that diabetes educators face as well as potential career options in non-traditional venues such as pharmacy clinics, government, academia, community centers, corporate offices, food/nutrition industry, and research and development firms. One of the main takeaways was the necessity for diabetes educators to market themselves to employers by demonstrating the range of skills they possess. However, the lack of public awareness and confusion about the role of the diabetes educator remains an issue in need of redress. The 2012 Workforce Summit resulted in concrete ideas and unique approaches to augmenting career opportunities for diabetes educators.

ADVOCATING FOR OUR MEMBERS IN THE LEGISLATIVE ARENA

Our advocacy efforts played a major role in AADE’s strategic initiatives, as our state licensure campaign continued to gain traction in a number of states, including Pennsylvania, Florida, Georgia, Indiana, Oregon, and Washington. Licensure of diabetes educators at the state level offers consumer protection for the patient, professional recognition of the diabetes educator and sets quality guidelines for the profession.

We continued to expand our presence by hosting a public policy forum in Washington, DC to train members on our federal legislative priorities and how to advocate on behalf of the specialty. Our special guest speakers included U.S. Senator Jeanne Shaheen (New Hampshire) and Dr. David M. Kendall, Distinguished Medical Fellow, Lilly Diabetes.

We also hosted state advocacy training in Indianapolis, Ind. with a focus on state licensure for the diabetes educator. The special guest speaker was Representative David Frizzell, Member, Indiana House Public Health Committee. In addition, we presented at various regional, state and local meetings on advocacy issues that have an impact on the diabetes community.

Moreover, we created a new “Advocacy Forum” on the MY AADE NETWORK. This online forum is a place where members can connect with other educators to discuss legislative and regulatory issues, find answers to questions, connect with peers, and find support for grassroots activities and public policy issues related to diabetes education and care.

MOVING FORWARD TO THE NEXT PHASE

While the 2010-12 strategic plan drew to a close, the Board of Directors’ was carefully examining the key trends in diabetes education, health care and associations in order to plan the next phase for AADE. These efforts resulted in the strategic plan for 2013-15.

The goal with this new plan is to focus on moving AADE and diabetes self-management education forward to a place where it is recognized by all patients, healthcare providers, payers, and our various health systems as a critical, cost-effective component of health and wellness programs. Part of this new plan involved refining our mission statement to better articulate AADE’s mission – “empower healthcare professionals with the knowledge and skills to deliver exceptional diabetes education, management and support.” We then crafted our overarching goals and the strategies that will help us achieve this new mission and grow the organization. These goals are:

» Investing in diabetes educators
» Advancing diabetes population health management
» Empowering people with diabetes
» Expanding AADE’s capacity

Part of this new plan involved refining our mission statement to better articulate AADE’s mission – “empower healthcare professionals with the knowledge and skills to deliver exceptional diabetes education, management and support.”
AADE and the American Diabetes Association jointly revised The National Standards for Diabetes Self-Management Education for appropriateness, relevance and scientific basis. This revision occurs every five years. The task force emphasized the role of ongoing support. In fact, both organizations felt it was so important that the word “support” was added to the title: The National Standards for Diabetes Self-Management Education and Support.

Another change is that all ten standards now include titles, for each of the standards. This allows the user to know what each standard represents. In addition, the term prediabetes is referenced more frequently in this document than in previous versions.

Finally, a key update to Standard Five now opens the door for additional professionals with certifications in diabetes education, such as a CDE or BC-ADM, to provide solo instruction.

Our Diabetes Education Accreditation Program continues to grow. We accredited a total of 543 programs that provide diabetes education within 1,435 sites. This growth has increased access for people with diabetes to receive education. Additionally, we were reapproved by the Centers of Medicare & Medicaid Services to continue as one of only two nationally accredited organizations. In a recent audit of our programs from Medicare, all randomly selected programs passed.

In 2011, we successfully relaunched the Board Certified-Advanced Diabetes Management (BC-ADM) credential and became the sole manager of the exam. In 2012, we were able to expand the list of disciplines eligible to apply. The BC-ADM is now available for those people who hold the MD, DO and PA credential.

Since its start in 2010, MY AADE NETWORK continues to engage and stimulate our members. The number of Local Networking Groups (LNGs) has grown from 88 to 109. In response to our members’ needs, we also added a new Community of Interest (COI) for plant-based nutrition for diabetes. Our volunteer leaders have used the discussion forums to share advice on things that have worked well in their own Coordinating Bodies, LNGs or COIs. Furthermore, we have seen ongoing contributions by the first Member Affiliate Council (MAC) co-facilitators in our leader events and activities. We also created online registrations for over 600 educational programs using MY AADE NETWORK. This continued growth demonstrates that MY AADE NETWORK has truly been an ideal resource for members to communicate and interact with each other.
Healthcare professionals are required to keep their knowledge current on the latest innovations in diabetes care and research. We understand this need, and seek ways to provide our members with ample educational tools and resources.

One of the year’s unique programs was our educational alliance with Capella University, which offers accredited, online degree programs. This provided many benefits to AADE members such as opportunities for free webinars with CE credit, scholarships and grants, as well as a 10 percent tuition discount. Capella offers the only online MSN and RN-to-MSN in Diabetes Nursing, which focuses on developing the advanced skills and knowledge to lead, consult and educate in diabetes treatment and prevention.

Diabetes educators encompass a wide range of levels and backgrounds. We launched the Career Path Program for diabetes self-management education that focuses on Levels 1-3 of the five provider levels defined in the AADE Guidelines for the Practice of Diabetes Self-Management Education and Training. The intent of this program is to provide a structure for training and education to providers involved in the delivery of diabetes education and care. The focus of the program is to prepare those new to the field and to support those in the early stages of their careers.

This past year, AADE began offering a number of courses online including CORE Concepts®, Continuous Glucose Monitoring and Inpatient Management. This gives our members more options for choosing the learning method that best suits them and the flexibility that fit their schedules. In addition, we continue to provide numerous recorded and live webinars, some of which offer free CE. This year, we had over 12,500 registrations for our live and recorded webinars.

Finally, we released a new publication called Managing Diabetes: Complications and Comorbidities, which has CE credits attached. This serves as a reference guide for diabetes educators for some lesser-known co morbidity disease processes that can influence quality of life for a person with diabetes. We will be looking to provide more publications with CE in 2013.

We are committed to cultivating your professional development. We have developed some useful educational resources for members to share with patients. We created three different food resource guides: Big Game Day Resource, Summer Food and Fun Resource and Holiday Eating Resource. All three guides offer tips and strategies for patients to stay on track when faced with many unhealthy and tempting food options at parties or events.

The Diabetes Complications Prompt Deck is a patient-education tool designed to stimulate discussions about diabetes complications in individual or group diabetes education sessions. Accompanying the prompt deck is an Educator Guide, which includes some brief talking points that may help guide the conversation with patients. It is by no means exhaustive, but it can serve as a quick reference tool when planning or leading a session.

We have transitioned AADE in Practice from a newsletter to a practice journal. The new bi-monthly publication offers practical tools and strategies that directly apply current research and best practices. Additionally, we continue to provide numerous recorded and live webinars, some of which offer free CE. This year, we had over 12,500 registrations for our live and recorded webinars.

Furthermore, we have transitioned AADE in Practice from a newsletter to a practice journal. The new bi-monthly publication offers practical tools and strategies that directly apply current research and best practices. It also highlights the multidimensional aspects of the diabetes educator to inspire, inform and empower AADE members.

Looking forward to the future

The year 2012 has been one of measurable growth and sustained progress. Moving forward, we will continue to support our members and help prepare them for great success in the future.
Public Affairs
Self-management is central to quality diabetes care and prevention. AADE advocates for policies that improve access to self-management education by collaborating with key stakeholders in the healthcare community.

Legislative Activity
- Introduced licensure legislation in Indiana
- Passed amendment for licensure legislation in Kentucky

Coalition Participation
- Diabetes Access to Care Coalition
- Diabetes Advocacy Alliance
- Diabetes Care Project
- HealthIT Now
- National Diabetes Education Program
- National Quality Forum
- Partnership for Prevention
- Partnership to Fight Chronic Disease
- Peers for Progress
- STOP Obesity Alliance

Public Policy Positions and Comments
- Special Diabetes Program (SDP): A federal program that has produced tangible results and real returns on the federal investment that are improving the lives of those with diabetes
- Improve Access to Diabetes Self-Management Training (DSMT): A Budget Neutral Solution to Address the National Diabetes Crisis
- AADE Position on Diabetes Action Plans: Identify Goals and Benchmarks to Reduce Incidence of Diabetes and Create Plans to Improve Diabetes Care
- AADE Position on Specialty Tiers: Barrier to Patient Access to Appropriate Therapy for People with Diabetes

Industry Allies Council Members
AADE developed the Industry Allies Council to create opportunities for healthcare companies to connect with and support the diabetes educator community, as well as engage in discussions of trends in practice, changes in the healthcare industry and AADE strategic priorities.

- Bayer Healthcare
- BD Consumer Healthcare
- Boehringer Ingelheim
- GlaxoSmithKline
- Lilly Diabetes
- LifeScan, Inc.
- Medtronic
- Merck & Co., Inc.
- Novo Nordisk
- NutriSystemD
- Roche Diagnostics
- Sanofi
- Takeda

Patient Education Materials
- Diabetes Complications Prompt Deck
- Big Game Day Resource
- Summer Food and Fun Resource
- Holiday Eating Resource

Practice and Research
The practice of diabetes self-management is evidence-based and outcomes-driven. AADE sets the scope and direction for self-management education.

Position Statements
- Management of Children with Diabetes in the School Setting
- Vaccination Practices for Hepatitis B, Influenza and Pneumococcal Disease for People with Diabetes Position Statement

Practice Advisories
- Advisory on CMS Obesity Coverage

Practice Documents and Other Publications
- “Recommendations for Managing Patients with Diabetes Mellitus in Cardiopulmonary Rehabilitation,” Journal of Cardiopulmonary Rehabilitation and Prevention
- “Changes and Consistencies in Diabetes Education Over 5 Years: Results of the 2010 National Diabetes Education Practice Survey,” The Diabetes Educator
- “National Standards for Diabetes Self-Management Education and Support,” The Diabetes Educator and Diabetes Care
- “Window of Opportunity: Postparum Screening of Women with Gestational Diabetes for Early Detection of Prediabetes and Type 2 Diabetes,” The Open Diabetes Journal
- “Promoting Health After Gestational Diabetes: A National Diabetes Education Program Call to Action,” Obstetrics and Gynecology
RESEARCH PROJECTS
» Together on Diabetes Project
» AT&T Telehealth Project
» CDC National Diabetes Prevention Program

SYMPOSIA
» Workforce Symposium
» Research Summit

FAVORABLY REVIEWED MATERIALS
» Six Diabetes Health Monitor issues
» Three member submitted publications—Diabetes & Exercise, Diabetes Education for Pharmacists, and Diabetes: Do You Know?
» The Diabetes Epidemic, 2nd Edition—DVD from Milner-Fenwick
» Guide to Better Office Visits—11 modules from Novo Nordisk

AADE DIABETES EDUCATION ACCREDITATION PROGRAM
Accredited 543 programs, 1,435 sites

RC-ADM CREDENTIAL
133 sat for the certification exam

MEMBERSHIP
AADE is the key to professional success. AADE provides opportunities and resources to advance skills and career goals, and offers its members a vibrant, supportive network.

MY AADE NETWORK
» Grew our Local Networking Groups from 88 to 109
» Added a new Community of Interest for Plant-Based Nutrition for Diabetes
» Created online registrations for over 600 educational programs

VOLUNTEER LEADER TRAINING
» Monthly online Volunteer Leader Newsletter
» Quarterly leader briefings
» Two-day Leadership Meeting
» Three Audio programs
» Online leader resource library

JOURNAL AND NEWSLETTERS
» Six issues of The Diabetes Educator
» Four issues of AADE in Practice
» 15 issues of the e-PHY member newsletter

EDUCATIONAL MEETINGS
» AADE Annual Meeting & Exhibition, August 2012
» Four CORE Concepts® courses
» Two Diabetes Accreditation Standards—Practical Applications Courses

PUBLICATIONS
» Managing Diabetes: Complications and Comorbidities

ONLINE PROGRAMS
» CORE Concepts® course
» Continuous Glucose Monitoring
» Inpatient Management

WEBINARS
» Behavior Change and Goal Setting
» Cancer and Diabetes Link
» Cardiovascular Disease & Diabetes: Medications & Eating to Improve Health
» Cardiovascular Risk: Diabetes & the New Cardiovascular Guidelines
» Diabetes and Depression
» Diabetes Management After Gastric Bypass
» Diabetes and the Mouth: Can It Predict Your Future?

ON-DEMAND WEBCASTS
» Critical Clinical and Behavioral Issues
» Helping Our Patients Overcome the Challenges of Injection Therapies: Practice Pearls for Diabetes Educators
» Training the Diabetes Dream Team: Strategies to Leverage GLP-1 RA Therapy
» Type 2 Diabetes: Patient Education Across Continuum of Care
» 40 Years of Diabetes Education Webcast

NEW MEMBER RESOURCES
» Enhanced Find A Diabetes Educator tool
» Continued enhancement of Diabetes Resource Connection
» New Visa credit card
» GEICO insurance

» Diabetes and Neuropathy
» Diabetes and Skin Care
» GDM New 2011 Guidelines
» How to Incorporate CHW into DSMT Programs

**Financial Review**

The American Association of Diabetes Educators has shown consistent and profitable growth. Our history of fiscal stability has allowed us to continue to develop programs, services and resources that keep our members at the forefront of diabetes patient care.

### Financial Review Details

#### 2012 PROFESSIONAL PRACTICE COMMITTEE

**Chair**
- Patricia (Mickey) Stuart, MPH, MS, CDE

**Co-Chairs**
- Cassandra E. Henderson, MD, CDE
- Claire Blum, MS Ed, RN, CDE

**Committee Members**
- Tanaka Hammons, PharmD, CDE
- Kathleen McKinney, RN, RD, CDE
- Susan Tucker, RN, CDE
- Mary Clark, RN, CDE
- Andrea Diedrich, MS, RN, CDE
- Andria King, MA, DNP, FNP-BC, CDE

### 2012 PROFESSIONAL PRACTICE COMMITTEE WORKGROUPS:

#### Tracking Practice Trends

- Jean C. Baltz, MMSc, RD, MSW, BC-ADM, CDE, Lead
- Evan Sisson, PharmD, MHA, CDE
- Sandra A. Parker, RD, CDE

#### Position Statements and Other Official Documents

- Wendy Kushion, RN, MSN, CDE, Lead
- David Randal, PsyD, LP, CDE
- Andrew Narva

#### Symposium Planning

- Kathleen Tilton, RN, PHN, CDE, Lead
- Jean C. Baltz, MMSc, RD, MSW, BC-ADM, CDE

#### Care Coordination and Chronic Care Management

- Barbara Kuczurak, PharmD, BCPS, CDE
- James Kohlenberg
- Andrew Narva

#### Translating Knowledge about DSME/T into Practice Initiatives

- Kim DeCoste, RN, MSN, CDE, Lead
- Dana Armstrong, RD, CDE

#### Position Statements and Other Official Documents

- Wendy Kushion, RN, MSN, APRN-BC, CDE, Lead
- David Randal, PsyD, LP, CDE
- Andrew Narva

#### Symposium Planning

- Kathleen Tilton, RN, PHN, CDE, Lead
- Jean C. Baltz, MMSc, RD, MSW, BC-ADM, CDE

#### Care Coordination and Chronic Care Management

- Barbara Kuczurak, PharmD, BCPS, CDE
- James Kohlenberg
- Andrew Narva

#### Translating Knowledge about DSME/T into Practice Initiatives

- Kim DeCoste, RN, MSN, CDE, Lead
- Dana Armstrong, RD, CDE

#### Position Statements and Other Official Documents

- Wendy Kushion, RN, MSN, APRN-BC, CDE, Lead
- David Randal, PsyD, LP, CDE
- Andrew Narva

#### Symposium Planning

- Kathleen Tilton, RN, PHN, CDE, Lead
- Jean C. Baltz, MMSc, RD, MSW, BC-ADM, CDE

#### Care Coordination and Chronic Care Management

- Barbara Kuczurak, PharmD, BCPS, CDE
- James Kohlenberg
- Andrew Narva
One of our major research initiatives was the Reaching Out for Better Health grant that supported new and expanded outreach and education activities for accredited diabetes programs that target underserved populations. In 2012, the Foundation received over 40 applications and selected 10 accredited education programs to participate. This grant provided a total of over $190,000 to the programs. The Foundation is grateful to all of the members who have supported this initiative as well as support received from the following corporate donors: Abbott, Bayer Diabetes Care, PepsiCo, and Lilly.

In an effort underwritten by AT&T, AADE has been working to utilize the audio and visual capability of the latest generation of smartphones for delivery of diabetes education. Working with the Diabetes Health and Wellness Institute in Dallas, Texas, we are using technology to simulate the group class experience in an effort to address health inequities by bringing diabetes education to people as opposed to making people travel to have access to the service. We are excited about leveraging technology to improve accessibility to quality diabetes education.

SCHOLARSHIPS THAT ADVANCE PROFESSIONAL DEVELOPMENT
The Foundation is dedicated to providing educational opportunities to association members. Our scholarships advance their professional development and assist them with their annual continuing education requirements. We awarded 35 scholarships in 2012:

- Leonor Aguilar, MSN, FNP, CDE
- Carolyn Bethwa, MS, RD, BC-ADM, CDE
- Jane Blosser, MS, RN, CDE
- Jennifer Byrd, RN, CDE
- Terri Epler, RN, CDE
- Tami Gamble, RN
- Debra Garnett, RN, CDE
- Karen Giese, RD, LD, BC-ADM, CDE
- Joao Hill, RD, LDN, CDE
- Andrea House, RD, CDE
- Linda Houthoofd, RN, CDE
- Kathy Jackson, MSN, RN
- Dawn James, APRN, CNS, CDE
- Gayle Jennings, MS, RD, LD
- Debbie Klingler, RD, LDN, CDE
- Betty Krauss, RD, CDE
- Connie Kulewicz, RN, CDE
- Andrea Layton, RN, BS, CDE
- Cynthia Leitschuck, RN, CDE
- Mary Catherine Messing, MA, RN, BSN, CDE
- Autumn Methner, MSN, RN, CDE
- Doris Mir, MPH, RD, LDN
- Marie Niemeyer, RD, LD, CDE
- Lidiane Indiani Pertamagna, MD
- Charlene Puryear, MSN, APN, RN, CDE
- Vanessa Randall, RN, BSN
- Yael Reich, RN, MSN, BC-ADM, CDE
- Joyce Scott, MSN, RN, CDE
- Courtney Slater, RD, LD
- Michelle Thomas, PharmD, BCACP, CDE
- Nancy Trebilcock, MSN, RN, CDE
- Robyn Tyler, MS, RN, BC-ADM, CDE
- Beverly Weaver, PharmD, BCACP, CDE
- Kelly Weiss, RN, CDE
- Mary Wilcox, RN, BSN, CDE

We are excited about leveraging technology to improve accessibility to quality diabetes education.
Every year during the AADE Annual Meeting, we recognize excellence in diabetes education and service to the association and the larger diabetes community.

The 2012 Living Legend Award was given to Marian Franz, MS, RD, CDE, who helped to define the role of nutrition therapy in diabetes management. She was recognized for her countless years of dedicated service to the diabetes community.

Carolé Mensing, RN, MA, CDE, FAADE, was awarded the 2012 Allene Von Son Distinguished Service Award, in honor of her many years of dedication to AADE, which included serving as editor-in-chief of The Art and Science of Diabetes Self-Management Education, and also serving on the AADE Board of Directors and numerous committees and task forces.

Diabetes Educator of the Year Award recipient, Joanne Rinker, MS, RD, CDE, LDN, was recognized for her role in helping to advocate for diabetes education at the state level and for establishing an accredited diabetes education program. Throughout 2013, she will be travelling the country delivering her continuing education program, “Can You Hear Me? The Connection between Diabetes, Hearing Loss and Depression,” to AADE state coordinating bodies and their affiliates.

The recipient of the 2012 MY AADE NETWORK Achievement Award was the Washington State Coordinating Body which was recognized for demonstrated leadership and support of national association goals.

Richard Peng, MS, MBA, RCEP, CHFS, CDE, was honored with the 2012 Rising Star Award. He was singled out for serving as a webmaster and being involved with organizing state conferences for the California Coordinating Body and his local networking group.

Kim DeCoste, MSN, RN, CDE, and Carolyn Dennis, MS, RD, CDE, received the 2012 Advocacy Award. Both hail from Kentucky and played a key role in getting the Kentucky State Licensure Bill introduced and passed during the 2012 congressional session.

We recognize excellence in diabetes education and service to the association and the larger diabetes community.

The 2012 Innovation in Practice Award went to Debra Norman, RN, CDE, for her project, “Improved Hospital Care for People with Diabetes.” This is anticipated to have a broad impact in how hospitals handle people with diabetes when they are admitted for acute care.

Terri Epler, RN, CDE, received the 2012 Innovative Use of Media and Technology Award for her project to improve self-management of diabetes among teenagers through the use of Internet technology.

We thank the following companies for supporting our awards program in 2012: Bayer Diabetes Care, BD, dLife, LifeScan, Inc., Roche Diagnostics, and Novo Nordisk.

FOUNDATION LEADERSHIP

2012 BOARD OF TRUSTEES

Donna Rice, MBA, BSN, RN, CDE, FAADE, Chair
Joan Banksley, RN, MBA, CDE, FAADE, Treasurer
Paul B. Maddox, MEd, Past-Chair
Charles Macfarlane, FACHE, CAE, CEO and Corporate Secretary
Deborah Fillman, RD, LD, MS, CDE, Trustee
Andrew Purcell, Trustee
Francine Kaufman, MD, Trustee
Michael Swearingen, Trustee
The AADE Education and Research Foundation is pleased to recognize the following donors for their generous contributions to the AADE Education and Research Foundation. These gifts have helped us fulfill our mission and improve the professional lives of many AADE members. Gifts listed here represent donations received from January 1, 2012, through December 31, 2012. We apologize in advance for any unintended omissions.
The AADE Education and Research Foundation maintained a strong financial position throughout 2012. The following charts represent the Foundation’s net assets, contributions to net assets, and a breakdown of how the Foundation funds are distributed to benefit diabetes educators.
